Dear Mr. Lavoie

We would like to extend our thanks to you and your staff for the hospitality and care shown during our recent site visit on June 11-12, 2014.

The Agency was able to stop and see virtually everything that we had wanted to visit. We were particularly impressed with the remediation of the fuel spill on the Misery Road during the winter road operation. The company took decisive action and the site appears to be in good condition, with no sign of further hydrocarbons. We also appreciated the opportunity to see the site of the proposed Jay pipe development by helicopter.

We wish to thank you and your staff again for your assistance with our visit and the hospitality shown by your team. We look forward to continuing our work and advice to you on environmental performance at the Ekati mine.

Sincerely,

Bill Ross
Chairperson
