DIRECTORS & STAFF

RECOMMENDATION

The Agency recommends that Arctic Canadian Diamond Company update the current Traditional Knowledge Management Framework (2017) so that it is applicable for the entire Ekati mine site and the TK obtained is in correspondence with guiding principles and protocols from whom the knowledge is gathered. It is recommended that the framework be developed in collaboration with and approved by Indigenous Governments and Organizations.

RECOMMENDATION

The Agency recommends that Arctic Canadian Diamond Company reactivate preparation and distribution of a clear language periodic newsletter designed to inform the public of major developments and activities taking place at the Ekati mine.
