NOTICE OF PUBLIC HEARING

ENR Proposal for Management Actions for the Bathurst Caribou Herd

On December 15, 2006, the Department of Environment and Natural Resources (ENR) submitted a proposal to the Wek'eezhii Renewable Resources Board (WRRB) outlining proposed management actions to reduce harvesting and collect accurate harvest information on the Bathurst Caribou Herd.

The WRRB has decided to conduct a public hearing before making any decisions on management actions for barren-ground caribou management within Wek'eezhii. The purpose of the hearing is to obtain additional information from ENR regarding its proposal and allow participants an opportunity to express their views on barren-ground caribou management within Wek'eezhii.

The following schedule has been established for processing the proposal:

Board questions to ENR & other participants	February 12, 2007
Responses from ENR & other participants	February 26, 2007
Receipt of comments from other participants	March 5, 2007
Public hearing (in Behchoko)	March 13-15, 2007
Final comments from parties	March 30, 2007

Anyone interested in participating in the hearing can do so by notifying the WRRB in writing by March 9, 2007. For more information, please contact:
